

**Name:** Rick DeGolia

**Occupation:** Attorney and Software Executive

I have been on the City Council for nine years. It is an honor to represent the residents of Atherton. I am running for reelection because people deserve responsible, accountable, transparent government. I am innovative and running on my record.

I was instrumental in advocating for and helping to ensure that Atherton built its new Town Center with very significant resident involvement and on budget. It is remarkable.

I worked to deepen our close, cooperative relationship with our police and to attract and retain officers with community policing as their commitment.

I strongly support local control of housing and believe that Atherton can provide excellent affordable housing with residents renting ADUs and schools building housing for staff.

I started the committee that resulted in Atherton Fiber building an extremely fast fiber network throughout Atherton.

I support increased community involvement and encourage resident communication to obtain input on all Council decisions. I respond to every email and phone call. I work to build consensus and always respect differences of opinion.

I have worked in Silicon Valley as a business lawyer and software executive for thirty-three years. I will listen to you and I want to represent your interests.
