

AP 7.27.2020

Name: Christine David

Occupation: Homemaker

Age: 57

As Atherton residents we need to become involved in our own town, in its policies, its current issues, and its effects on our local community. We must reinvigorate our sense of community by volunteering for town events, supporting local candidates, understanding major issues, speaking up at town council meetings, joining one of our 7 committees and 1 commission, or participating in ad-hoc committees. We consider master plans, associated budgets, facts and supporting figures in collaboration with other community members, asking questions, seeking clarification, voicing concerns, considering opinions, with an open mind, a broad perspective, and commitment to the town in which we live. We plan, valuing our history and protecting the present with a vision towards the future. We establish term limits for our committees, commission, and town council, recommending a new way to equally share the responsibilities of mayor. We move ahead generating excitement, involvement, and support encouraging rational change on behalf of our own Atherton community.

Your support means so much to me.
