Hello,

This is my public item on item 18 on the agenda.

---

Thank you, Mayor and Council, for taking the time to listen to me about this issue. My name is Rob Sandoval, and I represent the hard-working men and women who collect your solid waste and recycling. These workers have spent years working to provide good services to your residents. They know your streets and the houses in these routes to provide the best possible services, especially during times like now with COVID and the fires, a majority of people are staying home as our workers work hard to ensure your garbage is picked up, and your Town is clean. We ask that before you make the decision to leave the JPA that you take these workers into consideration before making that choice. Our workers get better benefits and wages than those at Greenwaste, and we hope that as well all thank our essential workers that we make sure that we also ensure they have livable wages and good healthcare in one of the most expensive Counties in California. I again respectfully ask that you stay within the JPA and continue your services with Recology.

**Robert M. Sandoval**  
*Business Representative*
