

Item No. 15 Town of Atherton

CITY COUNCIL STAFF REPORT – CONSENT AGENDA

**TO: HONORABLE MAYOR AND CITY COUNCIL
GEORGE RODERICKS, CITY MANAGER**

FROM: STEVE McCULLEY, CHIEF OF POLICE

DATE: JUNE 16, 2021

**SUBJECT: AUTHORIZE THE PURCHASE OF ONE (1) MARKED POLICE
VEHICLE; AND AUTHORIZE ONE CURRENT MARKED POLICE
VEHICLE TO BE RE-PURPOSED AS AN UNMARKED POLICE
VEHICLE FOR USE BY POLICE SUPPORT STAFF PERSONNEL.**

RECOMMENDATION

- 1) Authorize the purchase of one (1) marked 2022 Chevrolet Tahoe PPV for a total cost of \$88,585.02, which includes sales tax, tire tax, license, emergency equipment, and installation costs.
- 2) Authorize one (1) current PD2014 Ford Taurus marked police vehicle to be re-purposed as an unmarked PD fleet vehicle for use by the new Code Enforcement/Dispatcher position for use to support Code Enforcement operations.

BACKGROUND

The fleet of vehicles used by the Atherton Police Department (APD) is reviewed on a regular basis to identify those vehicles that need to be replaced due to mileage and wear. The Department has a vehicle replacement fund to which annual amounts are contributed such that, when vehicles reach their useful life, funds are available for their replacement.

The original PD fleet budget request was \$35,000 for an all-electric unmarked detective vehicle to replace a current 2014 unmarked Ford Taurus detective vehicle. Research revealed very limited all-electric vehicle options with restrictive operational vehicle size. Research also indicated that the major vehicle manufactures will have very viable all-electric PD vehicle options within approximately two years. Based on this information, the decision was made to not pursue the all-electric vehicle option at this time.

After review of the entire PD fleet, it was determined that one of our current 2014 Ford Taurus marked patrol cars (mileage 60,511) is in need of being replaced. Due to its age, and mileage, this vehicle has reached its service expectancy as a marked police patrol vehicle. In addition to the

overall condition of the Ford Taurus, it is also important to note that the Taurus has a noticeably smaller interior space than the Ford Explorer patrol car. Due to officer size, the external armored vest, and gun belt, the restricted interior space of the Taurus makes it difficult for an officer to get in and out of the vehicles which creates an officer safety issue and potential physical impacts to knees and hips.

Based on all of this information, Staff recommends this vehicle have the emergency equipment/police markings removed and retain it in the PD fleet for use by additional Code Enforcement Officer/Dispatcher positions for use during Code Enforcement assigned duties. This recommendation is based on the overall condition of the vehicle, officer safety concerns, and the current need to support Code Enforcement operations.

ANALYSIS

New Vehicle

The marked 2022 Chevrolet Tahoe vehicle will be a patrol vehicle for police members to use for day to day operations. This vehicle will be used to replace of one (1) marked 2014 Ford Taurus police vehicle.

The marked 2022 Chevrolet Tahoe PPV is a pursuit rated vehicle, meaning the engine cooling systems, tires, brakes, and suspensions are heavy-duty and designed to withstand the demands placed upon the vehicles during high speed driving conditions. The one (1) marked 2022 Chevrolet Tahoe will be fully set-up as a patrol officer vehicle with emergency lighting, a siren, and communications equipment. The vehicle will be equipped with all the necessary equipment for everyday patrol.

Over the past several years, the Atherton Police Department has utilized the Ford Utility Police Interceptor (Explorer) as the primary patrol vehicle. Since this transition, the Department has experienced several issues related to the catalytic converters, engine water pumps and engine air intake systems. In recent years, Ford had a Class Action Lawsuit filed against them due to an issue with their timing chain driven water pumps. This issue caused water pumps and engines to prematurely fail. Since the lawsuit was filed, a judge has ruled against the suit and Ford continues to produce their engines in this fashion. Although most repairs to the current patrol fleet have been completed under warranty, the cost of replacing a water pump out of warranty is approximately \$3,000. The mechanical issues with the Department's fleet of Ford vehicles has placed a strain on patrol operations as many times there have not been enough vehicles for the on-duty officers to drive.

The Chevrolet Tahoe comes equipped with a 5.3l Eco-Tec3 V8 engine. This engine is built with Active Fuel Management and Variable Valve Timing. This allows the engine to transition between eight cylinders and one cylinder, reducing both the amount of fuel consumed and the vehicle emissions. The 5.3l engine was first manufactured by General Motors in 1999. In 2007, General Motors introduced the 5.3l engine with Variable Valve Timing, however, the early models of this engine only transitioned between eight and four cylinders.

The 2022 Chevrolet Tahoe comes equipped with several driver safety features, including the following:

- Lane keep assist
- Forward collision alert
- Front pedestrian braking
- Following distance indicator

The base purchase price of the 2022 Chevrolet Tahoe is \$46,361.34. The total cost of the fully equipped police officer Chevrolet Tahoe vehicle is \$88,585.02. By comparison, the cost of a fully equipped 2022 Ford Explorer police officer vehicle would be \$96,857.53.

Surplus Vehicle

Marked 2014 Ford Taurus Police Vehicle (VIN# 1FAHP2MK1EG111733 – 60,511 miles)

After review of the entire PD fleet, it was determined that one of our current 2014 Ford Taurus marked patrol cars (mileage 60,511) is in need of being replaced. Due to its age, and mileage, this vehicle has reached its service expectancy as a marked police patrol vehicle. In addition to the overall condition of the Ford Taurus, it is also important to note that the Taurus has a noticeably smaller interior space than the Ford Explorer patrol car. Due to officer size, the external armored vest, and gun belt, the restricted interior space of the Taurus makes it difficult for an officer to get in and out of the vehicles which creates an officer safety issue and potential physical impacts to knees and hips.

Based on all of this information, Staff recommends this vehicle have the emergency equipment/police markings removed and retain it in the PD fleet for use by additional Code Informant/Dispatcher positions for use during Code Enforcement assigned duties. This recommendation is based on the overall condition of the vehicle, officer safety concerns, and the current need to support Code Enforcement operations.

Staff recommends that a new marked 2022 Chevrolet Tahoe PPV patrol vehicle replace this patrol vehicle at a total cost of \$88,585.02 (including tax, emergency and communications equipment, and installation (see attachments).

POLICY FOCUS

Staff recommends the 2014 Ford Taurus vehicle have the emergency equipment/police markings removed and retain it in the PD fleet for use by additional Code Enforcement Officer / Dispatcher positions for use during Code Enforcement assigned duties.

FISCAL IMPACT

The total cost of one (1) 2022 marked Chevrolet Tahoe PPV vehicles is \$88,585.02, which includes sales tax, tire tax, license, emergency equipment, and installation. Due to age and condition, none of the equipment from the marked 2014 Ford Taurus can be used for the one (1) 2022 Chevrolet Tahoe PPV vehicle. All new equipment will be used for the patrol vehicle.

The Finance Director has confirmed the vehicle replacement fund (Account Number 610-40-57005-040) will support the purchase of the one (1) 2022 Chevrolet Tahoe PPV vehicle during this current budget cycle.
