Town of Atherton**

CITY COUNCIL STAFF REPORT – CONSENT AGENDA

TO: HONORABLE MAYOR AND CITY COUNCIL

THROUGH: GEORGE RODERICKS, CITY MANAGER

FROM: STEVEN D. MCCULLEY, CHIEF OF POLICE

DATE: OCTOBER 20, 2021

SUBJECT: ACCEPTANCE OF \$30,645.22 DONATION IN SUPPORT OF POLICE DEPARTMENT TACTICAL MEDICAL PROGRAM WITH THE PURCHASE OF NEW MEDICAL EQUIPMENT, PROTECTIVE EQUIPMENT, AND INITIAL TRAINING

RECOMMENDATION

Acceptance of a \$30,645.22 donation for the Police Department Tactical Medical Program.

BACKGROUND

Tactical Medical Programs (TMPs) are being implemented throughout the nation by emergency response agencies. Law Enforcement Agencies have adopted a philosophy of having TMP cross-trained personnel. Essentially, this means that Law Enforcement Officers (LEO) with medical training are able to increase the survivability of a victim that is sick or injured. LEO's with medical training can respond to medical needs during "hot zone" responses, such as active shooter incidents. A hot zone is an area not safe for non-LEO's to operate in.

Currently, there are constraints on emergency medical services during an active incident. LEO's are trained in basic first aid and operate in "hot zone", but civilian EMS and Menlo Park Fire Protection District (MPFPD) do not enter these areas. The hot zone needs to be cleared by LEO's before EMS can begin to treat the sick/injured. A LEO with tactical medical training can treat the sick/injured almost immediately or as circumstances in the response zone allow. This increases survivability by providing immediate definitive care.

The Tactical Medical Program provides training to police personnel to increase their medical knowledge and training. This program would also work closely with MPFPD to have a symbiotic relationship, which would streamline patient care.\

ANALYSIS

While reviewing calls for service prior to the COVID-19 pandemic, Atherton Police Department (APD) responded to approximately four hundred (400) medical aid calls for service. In most instances APD arrived on scene prior to medical personnel. A Tactical Medical Program would allow officers with training to provide treatment for the sick/injured victim (to include the potential of officers themselves) prior to medical personnel arriving. The medical aid provided is beyond basic medical aid but less than EMS/MPFPD aid. For example, officers currently provide basic medical aid in the form of pressure bandages, basic CPR, and comfort aid. A trained officer as part of the Tactical Medical Program would learn more in-depth application and treatment for:

- Wound assessment and hemorrhage control
- Shock recognition and treatment
- Tourniquet application techniques
- Basic airway management
- Treat and manage gunshot wounds
- Treat and manage stab wounds
- Treat and manage penetrating chest wounds
- Provisions for evacuation and transport
- Rescue techniques
- Extraction techniques for downed officers or public in the line of fire

Trained Tactical Medical Program Officers will hold monthly trainings to train other officers. Officers assigned to the Tactical Medical Program will also be responsible for overseeing all PD medical equipment and aiding when needed. The medical equipment carried in APD vehicles would be similar to that of MPFPD's trauma bags so there will always be enough medical equipment at an incident, and it will be interchangeable.

The funds from the donor will support the Tactical Medical Program with the purchase of the following:

1. Medical Equipment
2. Medical bags for the equipment
3. Small medical bags to be issued to officers on motorcycles
4. Protective equipment for officers participating in the tactical medical program
5. Specialized training for officers assigned to the Tactical Medical Program (Tactical Medical Course through International School of Tactical Medicine (ISTM))

Staff was approached by a resident who wants to donate \$30,645.22 to the Town for the express purpose of funding the Tactical Medical Program.

POLICY FOCUS

The investment in a Tactical Medical Program will ensure the APD is equipped with new medical equipment that will help aid sick or injured victims. The Tactical Medical Program would also increase the baseline of Officers' medical training and knowledge to help increase the survivability of a sick or injured victims. There is an expectation that when public safety arrives on scene that that responder will render life-saving aid if possible. Participation and training in a Tactical Medical Program will provide not only a level of support for our officers that encounter victims in the field but will also provide another level of assurance that first responders *can* render aid.

FISCAL IMPACT

The cost to initiate the Tactical Medical Program is \$30,645.22. The private funding of \$30,645.22 will support the startup costs of the Tactical Medical Program. Ongoing costs to support the program are minimal as the program is designed in the "train the trainer" style and ongoing costs are solely related to the upkeep of any medical kits distributed to vehicles.

Equipment cost list:

Medical equipment: \$11,333.33

Medical equipment bags: \$6,713.40

Medical kits for motorcycles: \$780.92

Protective equipment for the Tactical Medical Officers: \$7,417.57

Training (ISTM Tactical Medical Training, CPR/AED and First Aid Instructor): \$4,400

GOAL ALIGNMENT

This report and its contents are in alignment with the following Council Policy Goals:

- Goal E – Strengthen Community Engagement and Transparency
- Goal F – Be Forward-Thinking, Well-Managed, and Well-Planned
- Goal G – Emergency Preparedness – Be Prepared

PUBLIC NOTICE

Public notification was achieved by posting the agenda, with this agenda item being listed, at least 72 hours prior to the meeting in print and electronically. Information about the project is also disseminated via the Town's electronic News Flash and Atherton Online. There are approximately 1,200 subscribers to the Town's electronic News Flash publications. Subscribers include residents as well as stakeholders – to include, but not limited to, media outlets, school districts, Menlo Park Fire District, service providers (water, power, and sewer), and regional elected officials.

COMMISSION/COMMITTEE FEEDBACK/REFERRAL

This item ___ has or X has not been before a Town Committee or Commission.

- _____ Audit/Finance Committee (meets every other month)
- _____ Bicycle/Pedestrian Committee (meets as needed)
- _____ Civic Center Advisory Committee (meets as needed)
- _____ Environmental Programs Committee (meets every other month)
- _____ Park and Recreation Committee (meets each month)
- _____ Planning Commission (meets each month)
- _____ Rail Committee (meets every other month)
- _____ Transportation Committee (meets every other month)
- _____ Tree Committee (meets each month)

ATTACHMENTS

1. Quote from Boundtree for new medical equipment.
2. Quote from Chinook for medical bags.
3. Quote from Spartan Armor Systems for small medical kits for motor officers.
4. Quote from First Spear for protective equipment (body armor).
