Yes please. The redwoods are very impressive and I would hate to see them go. I would have to know that they were planning to replace them with LARGE TREES equally large trees, not baby trees. Several flocks of birds live in them every night. I am opposed to their removal. Too many Big houses are destroying the tree shaded aspect of Atherton. I am hoping that they could reconfigure their home to leave the trees. I believe they could have taken in the topography before they had their plans drawn.

COMMENT #1

“I oppose the removal of the Redwood Trees at 1 Elm place unless they are replaced with an equal number of full size Oaks or Magnolias.”
